Preface

The completion of the first supplement to the *History of the Church in Southern Africa: A select bibliography of published material to 1980* is a sign of the importance of and need for this tool in different parts of the scholarly world, which has taken a keen interest in the work. This has encouraged the compilers to make the first supplement available soon after the publication of the main bibliography.

The first volume, which was published in 1986, has been received favourably by users and reviewers. Obviously there has been criticism which the compilers have gratefully accepted and given due consideration in order to improve the usefulness of the bibliography. It is hoped that librarians and church historians will find the supplement as useful a tool as the first volume.

Professor Willem S Vorster

Head of the Institute

Acknowledgements

We wish to thank everyone who has made a contribution to the compiling and completion of this supplement. Mrs M. Vermeulen was employed in the collecting of material, and also undertook the task of compiling the name index. Mrs N. Fouché was responsible for the typing of the manuscript: thanks are due to her for the way in which this was done. Prof W.S. Vorster has continued to take an interest in the project and Miss D. Rowse and Mrs M. Strassner of the Unisa library have always been willing to give advice and help.

Mrs M. Vermeulen, Rev. K. Roy and Mrs J. Millard assisted with the task of proofreading.

Introduction

GENERAL BACKGROUND

In presenting this supplement to the *History of the Church in Southern Africa: A select bibliography of published material to 1980* the compilers would like to draw attention to certain matters.

Vol 2 should not be seen in isolation. This supplement is intended to bring the main work (Vol 1) up to date. However, in the course of collecting the material it became clear that certain items published before 1980 had escaped our notice and were not included in the first volume of the *Bibliography*. These have now been included.

SCOPE AND LIMITATIONS

As in Vol 1 the geographical scope of this bibliography covers the area south of the Cunene and the Zambezi. This includes South Africa, Botswana, Lesotho, Swaziland, South West Africa/Namibia and Zimbabwe. The bibliography is limited to published material, mainly in the form of books, pamphlets and analytical entries from composite works. It was found impracticable at this stage to include archival material or articles from periodicals. The editors are, however, fully aware of the need to include periodical articles. Consideration is currently being given to the feasibility of attempting this enormous task.

Academic theses on masters and doctoral level are included, whether published or unpublished.

THE METHOD OF ARRANGEMENT

The material is once again divided into four main classes i.e.

1. General
2. Denominations
3. Missions
4. Topics

Although the scope and arrangement of the supplement is the same as that of the original *Bibliography*, there have been changes in church life in the past decade. Among others, the distinction between Church and Missionary society is gradually disappearing, with the result that it is becoming more difficult to sustain this difference in the classification system. The role of women in the church is also changing. It is only because a fair number of old publications are included, and also because histories are now being written about the

missionary societies (e.g. American Board) that we have felt justified in maintaining this distinction.

BIBLIOGRAPHICAL DESCRIPTION OF ITEMS

The bibliographical description of items is based on the *Anglo American Cataloguing Rules*, Second Edition, 1978. Certain adjustments have been made to adapt the code for use in a published subject bibliography.

INDEXES

There are two indexes. The name index includes personal authors, corporate authors, conferences, editors, compilers, names of the subjects of biographical works and persons to whom festschriften are dedicated.

The subject index is an alphabetical key to the systematic arrangement of the bibliography. Readers searching for a specific topic are advised to consult the Index as well as the Table of Contents. We have again attempted to overcome some of the obvious shortcomings of the classification system by bringing together related material in the subject index. Although, for example, the CESA and the CPSA are grouped together under the heading "Anglican", they are separated in the subject index.

CONCLUSION

No bibliography can presume to be complete. Again the editors would be grateful for any omissions brought to their attention which could be included in a later supplement.
